

Review Comments: Staff have declined to be interviewed through their lawyer Bill Dawkins. This has made it very difficult for Det Sgt Cameron to progress this matter any further. At this stage does not appear to be a criminal matter.

Review Comments: D/Sgt Cameron is continuing to progress this file and has discussed it with me. He is awaiting for the teachers lawyer to confirm if the staff will speak to him.

Review Comments: D/Sgt Camerson has continued to update me on this file. He is progressing the matter well, what is a complicated matter. He continues to have contact with the family.

Review Comments: Advice sought by D/s Cameron in respect of separate matter of an alleged witness who is unidentified byt communicating through Jonathan Eaton QC as to an event, date unknown, victim unknown and offender unknown. Brian to respond to Eaton suggesting that we cannot advance the matter unless informant fronts up with credible relevant information. This to be done with a defined end date. Ministry can be advised of this in the event that information exists on any medical register pertaining to Ruru School. Extremely unlikely without any time reference. Turnbolls spoken to extensively and very little criminal matters arising out of that, investigation plan to be created, this IP should be signed off by Inglis as I have conflict in respect of that matter. Expectations of Turnbolls will need to be managed, as previous file holders may have elevated this beyond what is reasonable

Review Comments: Matter recieved as part of further enquiry into time out room at the school. This matter appears to have already been investigated and reviewed by senior staff. To be investigated when time permits.

Review Comments: Matter is well documented and the decision making of previous supervisors is sound. I asked for this to be looked at in more detail as these matters can sometimes play out in other forums such as the media. The matters contained herein do not give rise to criminal
